

## BOBINA HONEYWELL BB052425

A Bobina Honeywell BB052425 é utilizada para ativar com corrente elétrica a solenoide das válvulas Honeywell e puxando em turnos um êmbolo ou pistão que tende a bloquear o fluido ou fluxo de ar.

- As bobinas Honeywell permitem flexibilidade, muitas delas possuem o sistema clip-on de fácil utilização;
- Bobina para a válvula solenoide de gás BB052425.

### Características:

| Modelo    | Modelo Valv.      | Tensão Nominal | 200 mbar | 360 mbar |
|-----------|-------------------|----------------|----------|----------|
| BB052301  | VE4010A & VE4014A | 220 Vac        |          | *        |
| BB051101  |                   | 110 Vac        |          | *        |
| BB052101  |                   | 24 Vac         |          | *        |
